# 1. System requirement

## 1.1. Magento version

Our THINNK theme is compatible with Magento version 2.0.x, 2.1.x and 2.2.x

## 1.2. System requirement

Our theme doesn't have any requirement rather than Magento's system requirement (see more at [2.1. Magento Installation](#))

# 2. Installation guide

## 2.1. Magento Installation

- System requirements

Magento 2.0: <http://devdocs.magento.com/guides/v2.0/install-gde/system-requirements2.html>

Magento 2.1: <http://devdocs.magento.com/guides/v2.1/install-gde/system-requirements2.html>

## 2.2. Theme Installation

### 2.2.1. Prepare Installation

Please remember to backup your website's code and database before installing our themes to make sure we have things to revert in case any conflict happens

### 2.2.2. Manual Installation

- Install theme via FTP:
  1. Log into your hosting space via a FTP software. ie FileZilla
  2. Unzip Package > Theme Files > theme\_v2.1.x.zip (or theme\_v2.2.x.zip if you use Magento version 2.2.x) and upload all directories(there are 2 directories - app, pub) to Magento 2 root directory.
- Install theme via Cpanel:
  1. Log into your CPanel(Control Panel) by your hosting account or cpanel user information.
  2. Upload Package > Theme Files > theme\_v2.1.x.zip(or theme\_v2.2.x.zip if you use Magento version 2.2.x) to your magento root directory and unzip its content.

### 2.2.3. Import Sample Data

Think theme provides extremely easy - one click demo installation. In order to do demo installation, you should import static Blocks and CMS pages in BSS Theme - Settings Theme > Import Data

The screenshot shows the BSS Themes admin interface. On the left is a sidebar menu with categories like DASHBOARD, BSS THEMES, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The 'BSS THEMES' category is expanded, showing options like Banner Slider, Manager Slider Items, Settings, Mega Menu, Manage Menu Items, Configurations, Bss Blog, Post, Category, Comment, and Theme Settings. The 'Import Data' option under Theme Settings is highlighted with a red box and an arrow. The main content area is divided into two sections. The top section is a table with columns 'Items' and 'Total', listing various items and their prices. The bottom section is a table with columns 'Product', 'Price', and 'Quantity', listing products like Iris Workout Top-XS-Red, Layla Tee-M-Red, Jean 1, Sweats & Hoodies 2, and Dress 2.

Items	Total

## Thinnk theme

Then choose Theme : Bss/Thinnk (1)

- Tick on CMS Pages (2): This will import CMS pages (About Us, Contact, 404...) created as on our demo website

- Tick on CMS Blocks (3): This will import static blocks (promo, collection, footer columns...) created as on our demo website

Then click on "Import" button, all sample data will be imported to your website.

## 3. Support

### 3.1. Policy

We only provide support for issues related strictly to the theme. We do not provide support for Magento configuration, installation, maintenance etc. If you have questions about Magento (for example: about managing categories and products, creating attributes, installing extensions etc.), please refer to **Magento Forum**. Almost every detail of Magento configuration is described there so you will find answers for all your questions. You will also find many helpful tutorials.

The best place to start searching is the **online Magento guide**. You can find there all the basic configuration information.

If you find any bugs (so far there were only a few, all fixed immediately), please contact us through the contact form on **our profile page** on <http://bssthemes.com/>.

### 3.2. Contact us

Any questions or concern about us, feel free to contact:

- Website: <http://bssthemes.com/>
- Support: [support@bssthemes.com](mailto:support@bssthemes.com)

BSS Theme Support team is always ready to aid you with any issue referring to our products. Additionally, we also give you Website development and Administration Support
